

Eye-to-eye Covered Strop

Step 36:

Taking care to only stitch through cover strands, make one stitch, but don't pull it tight....

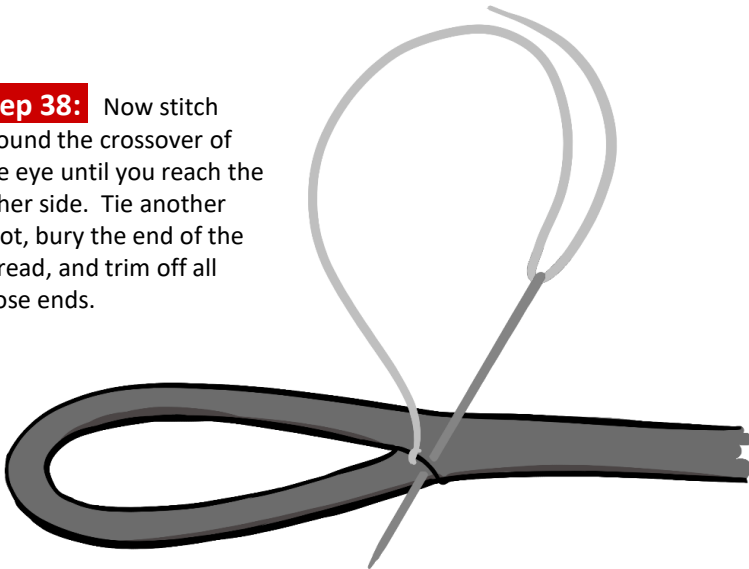

Step 37:

...until you've passed the thread through the loop to form a knot. Tug on the tail that you wisely left hanging out, and on the working thread to tighten the knot.

Step 38:

Now stitch around the crossover of the eye until you reach the other side. Tie another knot, bury the end of the thread, and trim off all loose ends.

Step 39:

It will kind of look like this.
